Weekly Mastermind Group Coaching Calls & Live Training Events

You can join our weekly Mastermind Calls as well as attend the live training and community events.

PLUS!

Genie Calls with Curtis:

On these calls, Curtis will help you navigate the program, sign up for sessions, explore the tech side of business or simply answer any questions.

Though he will help you if you need to access a specific training or have questions about them, only Kat can prescribe a training in a coaching session or during a Mastermind Call.

When you initially join the community, you will schedule a call with Curtis for a tour to get you started in the program. At any time during your program that you need his help with a technical or logistical question, he will be available to speak with you.

These are not coaching calls ... you might think of Curtis in this role as a concierge whose purpose is to make sure you are getting exactly what you need from your membership experience.

Quarterly Check-in Calls with Kat:

At the start of your membership and every three months thereafter, you will have a 30-minute Check-In Chat with Kat to look at where you are in the program and get her guidance on what is next for you. You can discuss your coaching relationship and any changes you want to make to your coaching package.

This is also an opportunity to connect on a more personal level outside of a formal coaching session or group call.
