

The Soulseach Overview

This module is intended to teach you how to organize your thoughts and feelings in a way that connects you to the wisdom of your soul.

No small promise!

It is a fairly simple process that we researched for years until we finally crafted a way of organizing thoughts and feelings to consistently access that inner voice.

That inner voice has your best interest at heart. This process channels your wisdom into creative action based on what is most important to you at any given time.

You can use **the Soulseach** process when you need to make a decision. It's an excellent tool to use when you are stuck in the mud and have a dream you're aching to make real.

It is also most powerful as part of a daily meditation and planning tool. You can use **the Soulseach** to get on solid ground with whatever is up for you on any given day or week.

Another way that **the Soulseach** process can be used is to help you create and stay connected to your bigger vision. This is why it is both a stand-alone Module and offered as a bonus in the Destiny Vision Program.

We have written a book, **The Soul Search**, about this process that you will want to read to fully understand its power and potential. It also offers many stories of how we used this process with clients, couples, groups and work teams.

There is an advanced training available if you would like to use **the Soulseach** in your coaching business.
